

## Taranaki National Art Awards: **Artist Guidelines 2019**

- All artworks must be ready to hang or display.
- Minimal on-site assembly of artworks allowed. Artists are not able to recreate installations onsite.

- Wet artworks will not be accepted.
- Wall displayed artworks **MUST** have weight specific D-rings attached. We use a hanging system; artworks hang best when D-rings are within the top fifth of the artwork (see diagram at right).

- Unframed paper works will be hung with weight specific clips (provided by the artist) that are connected to hanging system hooks.
- The preferred installation of some artworks may be compromised due to limited wall/floor space.
- Heavy wall artworks (over 20 kg) can be a strain on our hanging system and may be displayed on an easel.
- Sculptures to be displayed on plinth may need to include a supporting stand or mount to ensure they are secure and stable when freestanding. This is the responsibility of the artist.
